

STRENGTH THROUGH DIVERSITY

COMMERCIAL HVAC

Large scale projects are carried from design to completion with Crawford's team of estimators, fabricators, field crews, and installers. These projects are typically plan/spec or design build within commercial and industrial markets.

HOME COMFORT HVAC

With Crawford your investment in comfort starts with quality equipment and qualified installation. For over 60 years, Crawford has been honored to keep QCA homes comfortable. Crawford, a Factory Authorized Dealer, has been with Bryant since 1977. Crawford has been a Lennox dealer since 2000.

SERVICE HVAC/PLUMBING

Maintaining the investment in your comfort is the privilege of our well trained and qualified service department. Our technicians provide analysis and repair, 24 hours a day, in residential, commercial, and industrial HVAC and Plumbing markets. Crawford also offers maintenance programs to keep your equipment performing at maximum efficiency and comfort.

WELDED FABRICATION

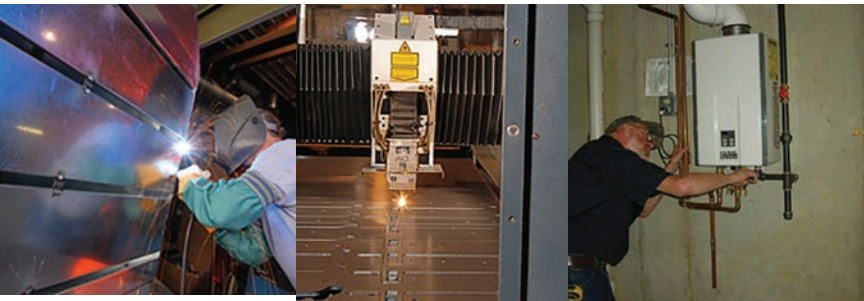

Crawford works in many industries and environments. Many of these projects are stainless steel fabrications for a number of material handling applications, control panels, work stands, and many other support products for the manufacturing process. Other regularly performed services for customers include prototype fabrication, parts production, and sub-assemblies for manufactured products.

LASER CUTTING

Crawford provides customers with precision cuts for mild steel, stainless steel, tool steel, aluminum, and plastics. Crawford offers four versatile machines to meet a variety of demands including a Balliu 3500-watt laser. The Laser Division complements Crawford's long-standing tradition of excellence in specialty fabrication.

PLUMBING

Our plumbing team repairs and replaces Faucets, Sinks/Disposals, Toilets, remodels Tubs/showers, repair and install Water/Sewer/Gas Lines, install and testing Backflow Valves, Tank and Tank-less water heaters, Sump/Sewage pumps, Backwater valves, Remodeling, New Construction, Maintenance contracts and much more.

MECHANICAL

Crawford Company offers full mechanical services to commercial, industrial, and governmental entities. Our services include, but are not limited to: boilers, chillers, process piping, as well as project estimation, management, scheduling, and on time delivery.

CUSTOM ARCHITECTURAL

Crawford's Custom Architectural Products complement interior decor and exterior facade designs in a number of unique settings. The company began specialty work in 1986. Since then, Crawford has played integral roles in commercial and residential projects. Much of the work is of copper and stainless steel design.

BREWING SYSTEMS

Crawford's equipment provides micro-brewers with functional and aesthetically pleasing equipment MADE IN THE USA. Typical offerings include: Stainless Steel Steam Fired Brewhouse, Steam Heated Mash Tun, Brew Kettles, Hot Liquor Tanks, Brewing Platforms, Keg Washers, Pumps, Valves, Heat Exchangers, Controls, Fermenters, and More!

MONOXIVENT SOURCE CAPTURE

Monoxivent has been protecting workplace environments from noxious fumes and particulate for over 60 years. The manufacturing capabilities of Monoxivent include a complete line of vehicle exhaust extraction systems, hose reels, overhead and underground exhaust systems, source capture flex arms, portable filter units, wall mount filter systems, collectors, and free hanging filter units.

UNDERDUCT FRP

UnderDuct FRP (Fiberglass Reinforced Plastic) for HVAC applications is corrosion resistant, light weight and designed for direct burial without concrete encasement. UnderDuct meets Class 1 requirements for flame and smoke when tested in accordance with ASTM E-84. Our duct can be found on LEED projects such as schools, churches, residences, airports, libraries, retail stores, and more. UnderDuct is a "green-friendly" building product.

CORROSION COMPOSITES FRP

Corrosion Composites fiberglass Duct, Stacks, Hoods, Scrubbers, Tanks, Troughs, and Trays are found in Water, Waste Water, and Industrial applications. Our manufacturing facility has been producing corrosion resistant fiberglass for over 40 years. We provide design, engineering, and fabrication.
