

Case Study

River Heritage Park

Crawford Division:

Welded Fabrication

Client:

River Heritage Park
Davenport, IA

Challenge:

Create aesthetically pleasing railing to serve as accent at new River Heritage Park

Solution:

Worked with design team to create functional railing along riverfront

Project Summary:

Crawford Company designed, fabricated, and installed 800 feet of railing along Davenport's new River Heritage Park. The railing incorporated the historic Arsenal Bridge design into the railing.
