CRAWFORD company

AIR CLEANING SOLUTIONS

Crawford Company offers a variety of air cleaning products for residential and commercial applications. Air cleaning and filtration can help protect the general well-being of occupants of an indoor or enclosed space. Air cleaning products are designed to reduce and/or remove airborne particulates such as:

- Dust
- Smoke
- Pollen
- Mold
- Viruses
- Allergens
- Bacteria
- Pet dander
- Odors
- Static electricity

Crawford Company

Rock Island, IL 61201
309-788-4573

Air cleaning products fall into two categories: **portable air cleaners** and **HVAC (furnace filters and duct-mounted air cleaners) products** installed in a central HVAC system. Portable air cleaners are stand-alone units that must be plugged in and turned on to operate. Portable air cleaners are commonly called air purifiers or air sanitizers. Furnace filters and other duct-mounted air cleaners filter the air whenever the HVAC system fan is operating.
