Old Fashioned Service Plus Energy Saving Technology

Residential Heating & Cooling

Residential heating and cooling was our only business when Crawford began back in the 1950's. We've grown a lot since then, but keeping folks in our part of the world safe and comfortable is still the single largest thing we do.

The secret to our success? Dedication to providing the highest quality equipment and unparalleled service. We hire only the best installers and technicians, we give them every reason to take pride in the work that they do for you and the relationships they build for our team.

> "We would like to express our appreciation for the great service we received when our furnace and air conditioner was installed. We would recommend Crawford Co. anytime."

Complete home comfort systems

When it comes to home comfort, we have a solution for everything that affects indoor temperature, humidity and air quality. From energy efficient air conditioners and furnaces to heat pumps, geothermal systems, in-floor systems, zone systems and air purification – we do it all!

Crawford proudly sells Bryant and Lennox products. Both are trusted leaders in engineering HVAC equipment for virtually any home application. Between them, we'll always have the best product for your home.
