

TOTAL SOLUTIONS COMPANY

EXPERTS SINCE 1952

QUALITY, SERVICE, INNOVATION

QUAD CITIES

Crawford Company has brought high quality services to the Quad-Cities for over 70 years. Founded by Harvey Crawford in 1952, we have grown from a small shop to a thriving corporation that looks to carry its momentum into the future.

Crawford continues to be guided by our original values: a commitment to product quality, customer service, innovation, business integrity, and a high regard for individual contributions. We strive to uphold these values in every aspect of our company.

DUBUQUE

In 2014, Crawford Company expanded into the Dubuque, Iowa area. Crawford North was born with a vision to expand Crawford's long-standing commitment to quality and customer satisfaction.

Crawford North is positioned to provide the level of expertise and innovation that is the foundation of Crawford Company. Crawford North specializes in welded fabrication, plumbing and HVAC in commercial, industrial and residential markets.

RESIDENTIAL HVAC

Crawford Company was built on serving the Quad-Cities in the residential heating and cooling market. Crawford, a member of the Better Heating and Cooling Bureau, has been proud to work for the Quad-Cities for over 70 years.

Crawford is the area's premier heating and cooling contractor. Our team is proud to employ only the best technicians and installers available 24/7 for your home or business. This coupled with Crawford's premier line, Bryant, makes Crawford a great option. Crawford is a Bryant Factory Authorized Dealer.

COMMERCIAL HVAC

Large scale projects are managed from design to completion by Crawford's team of estimators, licensed engineers, fabricators, field crews, and installers. The projects are typically plan/spec or design build within commercial and industrial markets.

Estimators begin the HVAC process by gaining jobs for the company. These individuals plan and build to carry these projects through completion. The estimators join forces with shop and field employees, providing a total team effort. Our Service team specializes in commercial preventative maintenance plans that can be customized to your facility and systems.

CONTRACTING

ELECTRICAL with Art-O-Lite

Crawford Company and Art-O-Lite provide residential, commercial, and industrial electrical services that include engineering and integration, data and communication cabling, access, motor, and temperature controls, and emergency standby power. Whether it is installing brand new wiring or finding out why outlets are not working, Crawford and Art-O-Lite are here to help. Our services come with expert knowledge, extensive professional safety training, and skilled craftsmanship.

MECHANICAL PIPING

Crawford offers full mechanical services to commercial, industrial, and government facilities. Our services include, but are not limited to the design, engineering, estimation, installation, replacement, and maintenance of boilers, chillers, cooling towers, pumps, mechanical piping, and process piping systems. Our professional team works hand in hand to see projects through from design to installation and service. We provide our clients with the correct system on time and within budget.

PLUMBING/DRAIN CLEANING

Our team of highly skilled plumbers are armed with the latest equipment and quality parts to ensure your plumbing service meets the highest industry standards. From remodels to new construction, we're the best choice for your residential, commercial and industrial plumbing projects. Large scale projects are managed by Crawford's team of estimators, licensed engineers, field crews and installers. Our plumbers can install boilers, tank and tankless water heaters, sump pumps, sewage pumps, water softeners, lead removal systems and more. Plumbers are available 24 hours a day, 7 days a week for your home or business.

MANUFACTURING

FABRICATION

Crawford works in a wide range of industries and environments. Many of these projects are stainless steel fabrications for material handling applications, control panels, work stands, and other support products for the manufacturing process. Other regularly performed services include prototype fabrication, parts production, and sub-assemblies for manufactured products. Our team welcomes other varied requests related to this field.

The primary focus of our fabricators is to provide solutions for our customer's unique applications, from design to completion.

WELDING

Crawford's Welded Fabrication Division has played an integral role in the corporate structure since 1985. Much of this work has been implemented by Crawford's team of specialty welders.

LASER CUTTING

Crawford provides customers with precision cuts for mild steel, stainless steel, tool steel, aluminum, and plastics. Crawford offers three versatile machines to meet a variety of demands including a Cincinnati CL-950c Fiber Laser.

CUSTOM ARCHITECTURAL

Crawford's Custom Architectural Products complement interior décor and exterior façade designs in many unique settings.

The company began specialty work in 1986. Since then, Crawford has grown with commercial and residential projects. Our team specializes in copper and stainless-steel design. Crawford employs a team of experienced specialty designers that work with customers from concept through completion.

BREWING & DISTILLING EQUIPMENT

Crawford provides craft brewers with functional and aesthetically pleasing equipment that is MADE IN THE USA. Our systems showcase our company's hallmarks: quality, service and innovation. Our engineers, designers, and highly skilled fabricators partner to form an effective and efficient process that is second to none.
