

NEW MAC FAN - MOBILE AIR CLEANER

They say that necessity is the mother of invention. That is the case with the development of the new MAC fan! This fan was developed in a two-week time frame, with the genesis being a request for a HEPA filtered mobile ventilator to convert a college dormitory to a COVID-19 isolation room. Our engineering and manufacturing team knocked it out of the park.

Features:

- Available in 500, 1000 and 2000 CFM versions
- Adaptable to a variety of installations
- Round discharge for flex duct connection
- Optional pre-filter and 24 x 24 HEPA filter
- Available with Vari-Flow ® EC motor
